

OCC HOUSING IMMUNIZATION RECOMMENDATIONS

DUE OCTOBER 1, 2023

All Housing Students are RECOMMENDED to:

- Obtain the Vaccines Listed Below
- Undergo Tuberculosis Risk Screening
- Upload Your Records to the Student Health Portal

RECOMMENDED VACCINATION

PROOF OF IMMUNIZATION

Measles, Mumps and Rubella (MMR)

first dose on or after age one

Varicella (Chickenpox)

first dose on or after age one -

History of Chickenpox does not satisfy the recommendation.

Tetanus, Diphtheria and Pertussis (Tdap)

on or after age 7

Td or Dtap does not satisfy the recommendation.

Meningococcal Conjugate Serogroups A, C, Y, & W-135

on or after age 16

For students age 21 years and younger only.

Students 22 or older may leave blank.

All students must read and sign the Meningitis Information form.

Screening Questionnaire for Tuberculosis

Log in to the Student Health Portal, click "My Forms." Click "OCC Tuberculosis (TB) Risk Assessment" and answer the questions.

All incoming students are recommended to complete the TB screening questionnaire on the Student Health Portal.

Students who have any "yes" answers on the assessment are at higher risk for TB infection and are recommended to submit documentation of either skin or blood testing for TB, done within 6 months of the move-in date. Those with a previous positive TB test are recommended to submit documentation of a chest xray done within 6 months of the move-in date.

Seasonal Influenza (Flu)
